

Mesa College Computer & Information Sciences (CISC)  
Department & Work-Based Learning Present

# CISC FRIDAY SPEAKER SERIES

1:00-2:30PM • BT BUILDING

FEBRUARY 7    APRIL 10

MARCH 6    MAY 1

*Hear from C-STEM professionals about career options, technology trends, and skills needed to land your dream job!*

All students & majors welcome! - Faculty FLEX # 1779

FEBRUARY 7  
1:00-2:30PM • BT-201

.....  
*Tara Javidi, UC San Diego Professor / Co-Director*

*Dr. Javidi founded and co-directs the Center for Machine-Integrated Computing and Security at UC San Diego. Among her projects is DetecDrone Target Search Technology, what she calls drones that think. Her research focus is on stochastic analysis, design, and control of information collection, processing, and transfer in modern communication, networked, and AI systems. Interests include: Information acquisition and utilization (such as active hypothesis testing and active learning); optimal routing in wireless mesh networks; cognitive and delay-sensitive communications and networking; and communications under application and/or secrecy constraints.*
